 Current Facility: NCN

TOPIC: Medical-Exc. Forced Treatment - Prescriptions, Medication Incident Date: 06-MAY-16

Response

LEVEL	Form Issue Date	Level Receive Date	Response Date
I - Formal Grievance	17-MAY-16	20-MAY-16	15-JUN-16

Level Response

Review of OGRE shows that the offender has filed a similar grievance (#87784) back in May of 2015.

According to the H.S.A. for Corizon Medical you were seen by the Provider on 11/19/15. The Provider advised you that the "risks outweigh the benefits" at this time for Estrogen therapy. You are currently under the care of Mental Health Staff as well. Therefore, at this time, usage of hormone therapy is unavailable due to the Providers medical recommendation.

Based on the above information your relief to be immediately started on hormone therapy for your severe chronic gender dysphoria is denied. Currently the "risks outweigh the benefits" and you are receiving Mental Health Treatment. No further relief can be offered.

GRIEVANCE DENIED

II - Formal Appeal	17-JUN-16	24-JUN-16	06-JUL-16
--------------------	-----------	-----------	-----------

Level Response

Grievance response for Donald Haviland #881536:

I have reviewed your medical file and concur with response in formal level of this grievance. Grievance denied.

Esther Hinton

Quality Assurance Manager

for

Monica Gipson, R.N.

Director, Medical and Clinical Health Care Services

Your appeal was referred to the health care professionals at Central Office and the response from the Director Health Services will serve for the response for the final level of review.

Appeal denied
