**MOTION TO UNSEAL TRANSCRIPTS**

The United States of America, by and through Special Counsel Robert S. Mueller, III, respectfully moves to unseal the sealed portion of the transcripts of sidebar/bench conferences that occurred during the status conferences held in this matter on January 16, 2018, and February 14, 2018. The transcripts of these bench conferences were sealed at the government's request. At the time, the government indicated that the cause for sealing was likely to be mooted in the near future and that the government had no objection to making the transcript available to the public once that happened. The government respectfully submits that unsealing is now appropriate. The government also submits that the transcript of an *ex parte* sidebar discussion between the government and the Court, conducted at the February 14, 2018, status conference should also be unsealed and made available to the public, the cause for sealing having been mooted.

The United States also moves to unseal the transcript of the portion of the proceedings held on February 14, 2018, that pertained to Manafort's motion to modify his bail conditions, subject to any redactions of the defendant's private personal or financial information that he has not already made part of the public record. As the Court advised the parties at that hearing, while there is a basis to seal personal and financial information that is not part of the indictment, there is also

a public interest in disclosure of the parties' communications with the Court more generally. The discussions that occurred during the February 14, 2018, bail hearing predominantly focused on information already in the public record or otherwise not private. Accordingly, the government requests that the transcript of that portion of the hearing be unsealed, subject to any particularized redactions that the defendant may propose by a date to be established by the Court.<sup>1</sup>

Respectfully submitted,

ROBERT S. MUELLER III
