United States District Court  
Northern District of California

**UNITED STATES DISTRICT COURT  
NORTHERN DISTRICT OF CALIFORNIA  
SAN JOSE DIVISION**

IN RE GOOGLE ASSISTANT PRIVACY  
LITIGATION

Case No. 19-cv-04286-BLF

**ORDER ON DEFENDANTS’ MOTION  
TO DISMISS THE THIRD  
CONSOLIDATED AMENDED  
COMPLAINT**

[Re: ECF 120]

The instant litigation comprises three separately-filed cases that the Court has consolidated. *See* ECF 42; ECF 109. The cases generally allege that Defendants Google LLC and Alphabet, Inc. (collectively, “Google”) unlawfully intercepted, recorded, disclosed, and used the private conversations of thousands of users of the Google Assistant software. Presently before the Court is Defendants’ motion to dismiss the entire consolidated suit. ECF 120. Having considered the parties’ arguments and the applicable law, the Court GRANTS IN PART and DENIES IN PART the motion to dismiss.

**I. BACKGROUND**

This is a putative consumer class action concerning the Google Assistant, a virtual assistant software developed by Defendants Google LLC and Alphabet, Inc. for use on various Google Assistant Enabled Devices (“GAEDs”) manufactured by Defendants and by third parties. Specifically, the operative Third Consolidated Amended Class Action Complaint (“3AC”), which was filed on November 9, 2020, ECF 118, contains the following allegations:

The Google Assistant is a voice-activated software, which means that users can ask questions of and give instructions to the Google Assistant using their voices. 3AC ¶¶ 2-4, 79. This software comes preloaded onto certain devices, such as the Google Home, the Google Pixel smartphones, and third party-manufactured smartphones that use the Google Android operating system; it can also

1 be installed on a range of devices. *Id.* Because the Google Assistant is voice-activated, it is  
 2 constantly listening for “hotwords”—i.e., “Okay Google” or “Hey Google.” *Id.* ¶ 80. It does this by  
 3 recording and analyzing short snippets of audio, which are stored locally in the Google Assistant  
 4 Enabled Device’s random-access memory (“RAM”); these snippets are continuously overwritten,  
 5 however, if no hotwords are detected. *Id.* ¶ 81. When the hotwords are detected, the Google Assistant  
 6 switches into “active listening” mode, meaning that it begins recording and analyzing audio in order  
 7 to carry out the user’s command. *Id.* ¶ 82. The Google Assistant can also be manually activated by  
 8 pressing a button on the device. *Id.*

9 Plaintiffs allege that Defendants keep and use the audio recordings for two purposes other  
 10 than carrying out the user’s command: (1) to target personalized advertising to users, and (2) to  
 11 improve the voice recognition capabilities of the Google Assistant. 3AC ¶¶ 83, 113. Sometimes, the  
 12 Google Assistant may be triggered into active listening mode when the Google Assistant  
 13 misperceives other words as the hotwords. This is known as a “false accept.” *Id.* ¶ 244. Plaintiffs  
 14 believe that in such situations, Defendants do not destroy the audio recordings, but rather continue  
 15 to use them for personalized advertising and to analyze the accuracy of the Google Assistant—just  
 16 as Defendants would do with authorized recordings. *Id.* ¶¶ 83, 105-113. As evidence, Plaintiffs point  
 17 to the investigation carried out by VRT NWS, in which VRT NWS reviewed “more than a thousand”  
 18 audio recordings and “identified 153 conversations” that were recorded due to false accepts. *Id.* ¶  
 19 104.

20 This suit is based on Defendants’ use of audio recordings in “false accept” situations. 3AC  
 21 ¶ 1, 6-8, 244. In Plaintiffs’ view, such use is an invasion of privacy, especially because many of the  
 22 recorded conversations take place in individuals’ homes. *Id.* ¶¶ 85-88; *see also* ¶¶ 18-75. Plaintiffs  
 23 also believe that this practice contravenes the privacy assurances that Defendants make to users in  
 24 their Privacy Policy. *Id.* ¶ 90. Plaintiffs are particularly troubled by the fact that some of the  
 25 recordings include the conversations of children because they do not believe that these children can  
 26 consent to being recorded. *Id.* ¶ 115.

27 Based on the foregoing, Plaintiffs have sued Google LLC and its parent company Alphabet  
 28 Inc. under various state and federal laws. There are 10 claims in the 3AC: (1) violation of the federal

1 Wiretap Act, 18 U.S.C. §§ 2510 *et seq.*; (2) violation of the federal Stored Communications Act  
 2 (“SCA”), 18 U.S.C. §§ 2702 *et seq.*; (3) violation of the California Invasion of Privacy Act  
 3 (“CIPA”), Cal. Penal Code § 632; (4) intrusion upon seclusion under California common law; (5)  
 4 invasion of privacy, in violation of Article I, Section 1 of the California Constitution; (6) breach of  
 5 contract under California common law; (7) violation of the California Unfair Competition Law  
 6 (“UCL”), Cal. Bus. & Prof. Code §§ 17200 *et seq.*; (8) violation of the California Consumers Legal  
 7 Remedies Act (the “CLRA”), Cal. Civ. Code §1750, *et seq.*; (9) fraud, deceit, and/or  
 8 misrepresentation under California common law; and (10) request for declaratory judgment under  
 9 the Declaratory Judgment Act, 28 U.S.C. §§ 2201 *et seq.* 3AC ¶¶ 148-288.

10 These claims are brought by seven Named Plaintiffs:

- 11 • Melissa Spurr is a resident of Union County, New York. 3AC ¶ 18. She alleges that  
 12 she owned at least three Google Home devices during the Class Period. *Id.* ¶ 20.
- 13 • B.S. is a minor member of Plaintiff Spurr’s household; as such, she has allegedly  
 14 interacted with Plaintiff Spurr’s Google Home device during the Class Period. 3AC  
 15 ¶¶ 19-20. She brings suit by and through her legal guardian, Plaintiff Spurr. *Id.*
- 16 • Lourdes Galvan is a resident of Los Angeles County, California. 3AC ¶ 27. She  
 17 alleges that she interacted with a Google Assistant-enabled Samsung Galaxy Tab  
 18 and a Google Assistant-enabled Samsung smartphone during the Class Period. *Id.* ¶  
 19 29.
- 20 • E.G., is a member of Plaintiff Galvan’s household; she was a minor during a portion  
 21 of the Class Period but now brings suit on her own. 3AC ¶¶ 28-29. Like Plaintiff  
 22 Galvan, E.G. alleges that she owned and interacted with a Google Assistant-enabled  
 23 Samsung Galaxy Tab and a Google Assistant-enabled Samsung smartphone during  
 24 the Class Period. *Id.* ¶ 29.
- 25 • Asif Kumandan is a resident of Kings County, New York. 3AC ¶ 38. He alleges that  
 26 he owned a Google Assistant-enabled Google Pixel smartphone during the Class  
 27 Period. *Id.* ¶ 39.
- 28 • Edward Brekhus is a resident of Marin County, California. 3AC ¶ 45. He alleges

1 that he owned a Google Assistant-enabled Google Home Mini device during the  
 2 Class Period. *Id.* ¶ 46. Brekhus obtained the device pursuant to a Spotify promotion.  
 3 *Id.*

- 4 • Jon Hernandez is a resident of Los Angeles County, California. 3AC ¶ 61.  
 5 Hernandez alleges that he purchased a Google Home Mini device during the Class  
 6 Period. *Id.* ¶ 62. He further alleges that he owned two other GAEDs during the Class  
 7 Period. *Id.* ¶ 67.

8 Defendants now move to dismiss the 3AC pursuant to Fed. R. Civ. P. 12(b)(6). Mot. at 1,  
 9 ECF 120. The motion has been fully briefed and was heard on May 6, 2021. See Opp., ECF 124;  
 10 Reply, ECF 129; ECF 134 (minute entry for hearing).

## 11 **II. LEGAL STANDARD**

12 A Rule 12(b)(6) motion to dismiss for failure to state a claim tests the legal sufficiency of a  
 13 complaint. *Navarro v. Block*, 250 F.3d 729, 732 (9th Cir. 2001). A claim will normally survive a  
 14 motion to dismiss if it offers a “short and plain statement ... showing that the pleader is entitled to  
 15 relief.” *See* Fed. R. Civ. P. 8(a)(2). This statement “must contain sufficient factual matter, accepted  
 16 as true, to ‘state a claim to relief that is plausible on its face.’” *Ashcroft v. Iqbal*, 556 U.S. 662, 678  
 17 (2009) (quoting *Bell Atl. Corp. v. Twombly*, 550 U.S. 544, 570 (2007)). “A claim has facial  
 18 plausibility when the plaintiff pleads factual content that allows the court to draw the reasonable  
 19 inference that the defendant is liable for the misconduct alleged.” *Iqbal*, 556 U.S. at 678. “The  
 20 plausibility standard is not akin to a ‘probability requirement,’ but it asks for more than a mere  
 21 possibility that a defendant has acted unlawfully.” *Id.* (quoting *Twombly*, 550 U.S. at 556). “Where  
 22 a complaint pleads facts that are ‘merely consistent with’ a defendant’s liability, it ‘stops short of  
 23 the line between possibility and plausibility of ‘entitlement to relief.’” *Iqbal*, 556 U.S. at 678  
 24 (quoting *Twombly*, 550 U.S. at 557).

25 When considering a Rule 12(b)(6) motion, the court must accept as true all factual  
 26 allegations in the complaint as well as all reasonable inferences that may be drawn from such  
 27 allegations. *LSO, Ltd. v. Stroh*, 205 F.3d 1146, 1150 n. 2 (9th Cir. 2000). Such allegations must be  
 28 construed in the light most favorable to the nonmoving party. *Shwarz*, 234 F.3d at 435.

1 Fraud allegations elicit a more demanding standard. Rule 9(b) provides: “In alleging fraud  
2 ..., a party must state with particularity the circumstances constituting fraud.... Malice, intent,  
3 knowledge, and other conditions of a person’s mind may be alleged generally.” Fed. R. Civ. P. 9(b).  
4 This means that “[a]verments of fraud must be accompanied by the ‘who, what, when, where, and  
5 how’ of the misconduct charged.” *Vess v. Ciba–Geigy Corp. USA*, 317 F.3d 1097, 1106 (9th Cir.  
6 2003). Like the basic “notice pleading” demands of Rule 8, a driving concern of Rule 9(b) is that  
7 defendants be given fair notice of the charges against them. *See, e.g., In re Lui*, 646 Fed. Appx. 571,  
8 573 (9th Cir. 2016) (“Rule 9(b) demands that allegations of fraud be specific enough to give  
9 defendants notice of the particular misconduct ... so that they can defend against the charge and not  
10 just deny that they have done anything wrong.”) (quotation omitted); *Odom v. Microsoft Corp.*, 486  
11 F.3d 541, 553 (9th Cir. 2007) (Rule 9(b) requires particularity “so that the defendant can prepare an  
12 adequate answer”). This heightened-pleading standard can apply even to claims that do not innately  
13 require proof of fraud. *E.g., Vess*, 317 F.3d at 1103–05.

14 If such a claim nonetheless avers fraudulent conduct, then at least those averments must  
15 satisfy Rule 9(b); and, if a claim rests “entirely” on a “unified course of fraudulent conduct,” then  
16 “the pleading of that claim as a whole must satisfy the particularity requirement of Rule 9(b).” *Id.*  
17 at 1103–04. Finally, “[a] motion to dismiss a complaint or claim ‘grounded in fraud’ under Rule  
18 9(b) for failure to plead with particularity is the functional equivalent of a motion to dismiss under  
19 Rule 12(b)(6) for failure to state a claim.” *Id.* at 1107.

20 A court’s review on a 12(b)(6) motion to dismiss “is limited to the complaint, materials  
21 incorporated into the complaint by reference, and matters of which the court may take judicial  
22 notice.” *Cedar Point Nursery v. Shiroma*, 923 F.3d 524, 530 (9th Cir. 2019) (citing *Tellabs, Inc. v.*  
23 *Makor Issues & Rights, Ltd.*, 551 U.S. 308, 322 (2007)). Moreover, in evaluating the complaint, the  
24 court must “accept factual allegations in the complaint as true and construe the pleadings in the light  
25 most favorable to the nonmoving party.” *Manzarek v. St. Paul Fire & Marine Ins. Co.*, 519 F.3d  
26 1025, 1031 (9th Cir. 2008). At the same time, a court need not accept as true “allegations that  
27 contradict matters properly subject to judicial notice” or “allegations that are merely conclusory,  
28 unwarranted deductions of fact, or unreasonable inferences.” *In re Gilead Scis. Sec. Litig.*, 536 F.3d

1 1049, 1055 (9th Cir. 2008) (internal quotation marks and citations omitted).

2 **III. REQUEST FOR JUDICIAL NOTICE AND INCORPORATION BY REFERENCE**

3 Defendants have submitted five exhibits that they ask the Court to review in ruling on their  
4 motion to dismiss. *See* Mot. 2-3; Bali Decl., ECF 121 ¶¶ 2-7, Exhs. A-F. Defendants believe these  
5 exhibits are either incorporated by reference in the 3AC or subject to judicial notice. Plaintiffs do  
6 not oppose this request.

7 There are two doctrines that permit district courts to consider material outside the pleadings  
8 without converting a motion to dismiss into a motion for summary judgment: judicial notice under  
9 Federal Rule of Evidence 201 and incorporation by reference. *Khoja v. Orexigen Therapeutics, Inc.*,  
10 899 F.3d 988, 998 (9th Cir. 2018), *cert. denied sub nom. Hagan v. Khoja*, 139 S. Ct. 2615 (2019).  
11 The judicial notice doctrine permits a court to take judicial notice of matters that are “not subject to  
12 reasonable dispute.” Fed. R. Evid. 201(b). A fact is “not subject to reasonable dispute” if it is  
13 “generally known,” or “can be accurately and readily determined from sources whose accuracy  
14 cannot reasonably be questioned.” Fed. R. Evid. 201(b)(1)–(2). However, “[j]ust because the  
15 document itself is susceptible to judicial notice does not mean that every assertion of fact within  
16 that document is judicially noticeable for its truth.” *Khoja*, 899 F.3d at 999. For instance, though  
17 public records are generally subject to judicial notice, a court may not take judicial notice of disputed  
18 facts within public records. *Id.*

19 “[I]ncorporation-by-reference is a judicially created doctrine that treats certain documents  
20 as though they are part of the complaint itself.” *Khoja*, 899 F.3d at 1002. This doctrine permits a  
21 court to consider a document “if the plaintiff refers extensively to the document or the document  
22 forms the basis of the plaintiff’s claim.” *United States v. Ritchie*, 342 F.3d 903, 908 (9th Cir. 2003).  
23 A court generally “may assume an incorporated document’s contents are true for purposes of a  
24 motion to dismiss under Rule 12(b)(6).” *Khoja*, 899 F.3d at 1003 (internal quotations omitted).  
25 Because all inferences must still be drawn in the nonmoving party’s favor, however, “it is improper  
26 to assume the truth of an incorporated document if such assumptions only serve to dispute facts  
27 stated in a well-pleaded complaint.” *Id.*

28 Exhibit A is a copy of the current version of the Google Terms of Service, effective as of

1 March 31, 2020. Bali Decl. ¶ 2. Exhibit B is a copy of the Google Privacy Policy, effective as of  
 2 December 19, 2019. *Id.* ¶ 3. Exhibit C is a copy of the Google Terms of Service, effective as of  
 3 October 25, 2017. *Id.* ¶ 4. Exhibit D is a copy of the Google Terms of Service, effective as of April  
 4 14, 2014. *Id.* ¶ 5. These documents “form the basis” for Plaintiffs’ claims for breach of contract as  
 5 they contain the contract terms that were allegedly breached. *See* 3AC ¶¶ 237, 242. Defendants’  
 6 request to incorporate by reference Exhibits A-D is GRANTED. *See Ritchie*, 342 F.3d at 908;  
 7 *accord Bass v. Facebook, Inc.*, 394 F. Supp. 3d 1024, 1037 n.1 (N.D. Cal. 2019) (granting  
 8 Facebook’s request to incorporate by reference the Terms of Service because the consolidated  
 9 complaint relied upon them to allege the breach of contract claims and statutory claims).

10 Defendants also ask the Court to consider Exhibit E— a true and correct copy of the  
 11 “Transcript of Proceedings Before the Honorable Beth Freeman United States District Judge” from  
 12 the April, 9 2020 hearing on Google’s Motion to Dismiss Plaintiffs’ Consolidated Amended Class  
 13 Action Complaint. Mot. at 2-3; Bali Decl. ¶ 6. Courts may properly take judicial notice of other  
 14 court filings and matters of public record. *Reyn's Pasta Bella, LLC v. Visa USA, Inc.*, 442 F.3d 741,  
 15 746 n.6 (9th Cir. 2006). Defendants’ request for judicial notice of Exhibit E is GRANTED.

16 Lastly, Exhibit F purports to be a copy of the “Manage audio recordings in your Web & App  
 17 Activity” webpage from Google’s Help Center. Bali Decl. ¶ 7. This document is not incorporated  
 18 by reference by the 3AC; rather, Defendants ask the Court take judicial notice of it because it appears  
 19 on a publicly accessible website. Mot. at 3 (citing Fed. R. Evid. 201(b)). The existence of this  
 20 document is a judicially noticeable fact, and therefore the Court GRANTS Defendants’ unopposed  
 21 request. *See, e.g., Opperman v. Path, Inc.*, 84 F. Supp. 3d 962, 976 (N.D. Cal. 2015) (collecting  
 22 cases in which courts have taken judicial notice of publicly available policies and agreements). The  
 23 Court notes, however, that this notice does not establish that the document is valid or otherwise  
 24 binding on the Plaintiffs. *See Datel Holdings Ltd. v. Microsoft Corp.*, 712 F. Supp. 2d 974, 984  
 25 (N.D. Cal. 2010).

#### 26 **IV. DISCUSSION**

27 The Court made extensive findings regarding the legal viability of Plaintiffs’ previous  
 28 complaint when considering Defendants’ previous motion to dismiss. *See* Order on Motion to

1 Dismiss, ECF 80. The Court addressed each element of each claim in detail. *See generally id*; *see*  
2 *also* Defendants’ Motion to Dismiss Consolidated Amended Class Action Complaint, ECF 56 at i-  
3 ii (attacking Plaintiffs’ claims in turn). Defendants adopt a more particularized approach in the  
4 instant motion. *See* Mot. at i-ii. The Court addresses each argument raised by Defendants in turn.

5 **A. Counts 1, 3, 4, and 5 and the Reasonable Expectation of Privacy**

6 Plaintiffs bring claims 1, 3, 4, and 5 for violation of the Wiretap Act, violation of CIPA §  
7 632, intrusion upon seclusion under California common law, and invasion of privacy in violation of  
8 the California Constitution. According to Defendants, Plaintiffs Galvan, E.G., and Kumandan’s  
9 privacy claims fail because they have not alleged that Google intercepted their private  
10 communications. Mot. at 6-10.

11 To state a claim under the Wiretap Act or CIPA § 632 or for intrusion upon seclusion or  
12 invasion of privacy, Plaintiffs must allege facts showing that they had a reasonable expectation of  
13 privacy in the oral communications that they allege were recorded without their consent. *See* Order  
14 on Motion to Dismiss at 11 (must allege “reasonable expectation of privacy” in oral communications  
15 to state a claim under the Wiretap Act) (quoting *United States v. McIntyre*, 582 F.2d 1221, 1223  
16 (9th Cir. 1978)); *id.* at 28 (to state a CIPA Section 632 claim, plaintiffs must allege “confidential  
17 communications,” which requires a “reasonable expectation of privacy”) (citing *Kearney v.*  
18 *Salomon Smith Barney, Inc.*, 39 Cal.4th 95, 117, n.7 (2006)); *id.* at 31 (the intrusion must have  
19 occurred “under circumstances that would give rise to a reasonable expectation of privacy” to state  
20 a claim for intrusion upon seclusion or invasion of privacy); *see also Hernandez v. Hillsides, Inc.*,  
21 47 Cal. 4th 272, 285, 288 (2009).

22 Defendants argue that the 3AC does not allege facts showing that Plaintiffs frequently had  
23 oral communications near their devices under circumstances giving rise to a reasonable expectation  
24 of privacy. Mot. at 7-10. The Court addressed this argument in part in its order on Defendants’  
25 previous motion to dismiss. This Court concluded that the Named Plaintiffs’ allegations were “too  
26 vague” to infer that Plaintiffs’ respective GAEDs intercepted their private conversations. Order on  
27 Motion to Dismiss at 11. Although this Court rejected Defendants’ suggestion that Plaintiffs were  
28 required to identify specific communications that Plaintiffs reasonably believed to be private and

1 that were wrongly recorded, it nonetheless found that Plaintiffs failed to allege that they had a  
2 reasonable expectation of privacy in the intercepted communications. *Id.* In support of this  
3 conclusion, the Court pointed to the lack of “facts regarding the participants in the conversations,  
4 the locations of the conversations, or examples of content from the conversations.” *Id.* at 12. The  
5 Court highlighted that lack of detail was “especially glaring” for Plaintiffs who interacted with  
6 smartphones because “smartphones are by their nature mobile and are frequently used in public  
7 places.” *Id.* The 3AC includes extensive amendments about the Named Plaintiffs’ usage of their  
8 GAEDs. 3AC ¶¶ 18-75

9 In light of these amendments, the Court is satisfied that Plaintiffs allege sufficient facts to  
10 show that they frequently had oral communications near their devices under circumstances giving  
11 rise to a reasonable expectation of privacy. Plaintiffs Galvan and E.G., who are members of the  
12 same household, allege that they own a Samsung smartphone and a Galaxy Tab device. 3AC ¶ 29.  
13 Plaintiffs Galvan and E.G. allegedly charge these devices in their living or dining room during the  
14 day and in the bedroom at night. *Id.* ¶ 31. They further allege that they have private conversations  
15 with family members “in their home, bedroom, and car” in the presences of the GAEDs. *Id.* ¶¶ 30-  
16 31. For example, on September 17, 2018, the Galvan family had a “private disciplinary  
17 conversation” “concerning personal responsibility. This confidential conversation was recorded  
18 without a hot word.” *Id.* ¶ 32; *see also id.* ¶ 33 (conversation about Galvan parents’ childhood in the  
19 inner city). Similarly, Plaintiff Kumandan alleges that he “frequently carried his Google Pixel  
20 smartphone on his person, including to areas within his home where he has a reasonable expectation  
21 of privacy.” *Id.* ¶ 39. Kumandan alleges that his GAED recorded a conversation between him and  
22 his wife about BBQ sauce at their joint residence “where they have expectation of privacy.” *Id.* ¶  
23 40; *see also id.* ¶ 42 (On July 6, 2019, “Google recorded Plaintiff Kumandan’s interaction with his  
24 family member and/or a friend which took place in privacy and to the exclusion of all other persons  
25 where Plaintiff Kumandan had a reasonable expectation of privacy”). Contrary to Defendants’  
26 assertion to the contrary, Mot. at 8, these allegations properly detail the circumstances under which  
27 Plaintiffs’ private conversations occurred. Plaintiffs Galvan, E.G., and Kumandan all allege that the  
28 GAEDs intercepted conversations between family members that occurred inside their respective

1 homes. Such interceptions occurred “surreptitiously” without Plaintiffs uttering a hot word or  
2 manually activating the devices. *Id.* ¶¶ 32, 43. While Defendants seem to take issue with the fact  
3 that Plaintiffs’ decline to go into more granular detail about the content of their conversations, this  
4 demand has already been rejected by the Court, Order on Motion to Dismiss at 11, and undermines  
5 the alleged private nature of the conversations. In sum, the Court finds that Plaintiffs had a subjective  
6 expectation that these conversations were not being overheard or recorded and that this expectation  
7 was objectively reasonable. *McIntyre*, 582 F.2d at 1223.

8 Defendants further argue that Plaintiffs fail to allege facts showing that false accepts  
9 routinely occur. Mot. at 10. As an initial matter, Plaintiffs need not plead this allegation in light of  
10 amendments to the 3AC. In the Court’s previous Order, it held Plaintiffs must allege that “they  
11 frequently have oral communications near their respective Google Assistant Enabled Devices under  
12 circumstances giving rise to a reasonable expectation of privacy” coupled with an allegation that  
13 “false accepts routinely occur” to support an inference that their private conversations were  
14 intercepted. Order on Motion to Dismiss at 12; *see also id.* (“At the motion hearing, Defendants  
15 represented that through their accounts, users can view all their past conversations with the Google  
16 Assistant, including false accepts. If that is the case, Plaintiffs are advised to avail themselves of  
17 that information.”). This holding was made in context of the previous complaint, in which the  
18 Plaintiffs failed to identify *any* conversations that Defendants surreptitiously recorded. Plaintiffs  
19 have now rectified this problem and have identified multiple conversations that Defendants recorded  
20 even where Plaintiffs did not utter a hot word or manually activate the devices. *See generally* 3AC  
21 ¶¶ 18-75.

22 The Court declines to heed Defendants’ objection for a second reason. Defendants object  
23 that the allegations in the complaint do not establish that false accepts occur frequently and that  
24 “[t]he relevant inquiry is how frequently the Assistant records communications which are not  
25 intended for it, and Plaintiffs’ own allegations show that this figure is low.” Mot. at 10. But this  
26 inquiry is more properly considered at the summary judgment phase. At the motion to dismiss phase,  
27 the complaint is construed in a light most favorable to the plaintiff, *Everest & Jennings, Inc. v.*  
28 *American Motorists Ins. Co.*, 23 F.3d 226, 228 (9th Cir.1994), and all reasonable inferences are to

1 be drawn in favor of the plaintiff, *Jacobson v. Hughes Aircraft*, 105 F.3d 1288, 1296 (9th Cir.1997).  
 2 In the 3AC, Plaintiffs Galvan, E.G., and Kumandan allege that they often engaged in private  
 3 conversations near their GAEDs and identified specific occurrences of private conversations that  
 4 were allegedly intercepted. 3AC ¶¶ 27-44. Plaintiffs further allege that “[o]f the 11 recorded  
 5 conversations reflected in the Google account connected to Plaintiff Galvan’s smart phone, all 11  
 6 were non-consensually recorded by Google and the Google Assistant Enabled Device” and “[o]f the  
 7 seven recorded conversations that Plaintiff Kumandan’s Google account currently reflects, five, or  
 8 71%, were non-consensually recorded by Google and Google Assistant Enabled Device.” *Id.* ¶¶ 36,  
 9 44. Drawing all reasonable inferences in favor of the Plaintiffs, the 3AC adequately alleges that  
 10 false accepts routinely occur.

11 The Court DENIES Defendants’ Motion to Dismiss based on a failure to allege that Google  
 12 intercepted Plaintiffs’ private communications

13 **B. Count 1 and Unlawful Disclosure or Use**

14 The Wiretap Act “is designed to prohibit ‘all wiretapping and electronic surveillance by  
 15 persons other than duly authorized law enforcement officials engaged in investigation of specified  
 16 types of major crimes.’” *Greenfield v. Kootenai County*, 752 F.2d 1387, 1388 (9th Cir. 1985)  
 17 (quoting S. Rep. No. 1097, 90th Cong., 2d Sess.). In Count 1 of the 3AC, Plaintiffs allege that the  
 18 Defendants violated 18 U.S.C. § 2511(1)(a) of the Wiretap Act, which makes it unlawful for a person  
 19 to “intentionally intercept[], endeavor[] to intercept, or procure[] any other person to intercept or  
 20 endeavor to intercept, any wire, oral, or electronic communication.” *Id.* § 2511(1)(a); *see* 3AC ¶¶  
 21 160-162. The Wiretap Act also imposes liability on any person who “intentionally discloses” to  
 22 “any other person the contents of any wire, oral, or electronic communication,” or “intentionally  
 23 uses” the “contents of any wire, oral or electronic communication” while “knowing or having reason  
 24 to know that the information was obtained through the [unlawful] interception,” *id.* § 2511(1)(c)-  
 25 (d); Plaintiffs allege that Defendants also violate these provisions. *See* 3AC ¶¶ 163-168.

26 Defendants now argue that Plaintiffs’ theory that Google is liable under § 2511(1)(c)-(d) for  
 27 disclosing and using unlawfully intercepted oral communications to target personalized advertising  
 28 to them fails as a matter of law. Mot. at 11-13. Defendants contend that (1) “the only Plaintiffs who

1 allege that they were targeted with personalized advertisements are Kumandan, Galvan, and E.G.”,  
 2 (2) “liability for disclosure or use is contingent on the original interception being unlawful”; and  
 3 (3) “there are no allegations that Google *disclosed* Plaintiffs’ communications to a third party for  
 4 the purpose of targeting advertisements.” Mot. at 11 (quoting Order on Motion to Dismiss at 15)  
 5 (emphasis in original).

6 First, the Court agrees with Defendants that the Plaintiffs’ allegations of targeted advertising  
 7 are limited to Plaintiffs Galvan, E.G., and Kumandan. In the 3AC, Galvan and E.G. allege the  
 8 following facts regarding Google’s use of private conversations for targeted advertising:

9 Several times, topics of Plaintiff Galvan’s and Plaintiff E.G.’s  
 10 private conversations were used to target advertisements to them. In  
 11 one such instance, Plaintiff E.G. was doing research on Los Angeles  
 12 gangs and was having a conversation regarding these gangs during  
 13 her parents’ childhood (who both grew up in the inner city).  
 14 Following this conversation, Plaintiff E.G. receive targeted  
 15 advertising in the form of suggested videos by YouTube, a Google-  
 16 owned company.

17 3AC ¶ 33. Kumandan alleges:

18 On at least one occasion, the subject matter of a conversation  
 19 between Plaintiff Kumandan and his wife were used to target  
 20 advertisements to Plaintiff Kumandan. In one such instance,  
 21 Plaintiff Kumandan was speaking to his wife about BBQ sauces.  
 22 Plaintiff Kumandan did not search for or otherwise interact with  
 23 Google regarding the same subject matter. Following this  
 24 conversation, Plaintiff Kumandan received targeted advertisement  
 25 where an ad for a BBQ sauce was displayed on Plaintiff  
 26 Kumandan’s Instagram page. This conversation took place in  
 27 Plaintiff and his spouse’s joint residence where they have  
 28 expectation of privacy

29 *Id.* ¶ 40. Plaintiffs do not argue otherwise. *See* Opp. at 10. Accordingly, the Court DISMISSES  
 30 WITHOUT LEAVE TO AMEND any Wiretap Act claim based on targeted advertising by Plaintiffs  
 31 Spurr, B.S., Brekhus, and Hernandez.

32 Defendants next argue that Plaintiffs’ Wiretap Act claim must be dismissed because  
 33 Plaintiffs Galvan, E.G., and Kumandan fail to plead facts showing that the alleged interception was  
 34 unlawful. Mot. at 11-12; *see Noel v. Hall*, 568 F.3d 743, 751 (9th Cir. 2009); 18 U.S.C. § 2511(c),

1 (d) (prohibiting the use or disclosure of the contents of any wire communications “obtained through  
 2 the interception of a wire . . . communication in violation of this subsection”). But, as explained in  
 3 Section III.A, Plaintiffs Galvan, E.G., and Kumandan successfully alleged that Defendants  
 4 intercepted a “wire, oral, or electronic communication.” 18 U.S.C. § 2511(a)(1). And the Court has  
 5 previously held that Plaintiffs successfully alleged that such interception was intentional. Order on  
 6 Motion to Dismiss at 9-10.

7  
 8 Defendants’ final argument is that there are no allegations that Google disclosed any  
 9 recordings to any third party. This argument speaks solely to the viability of Plaintiffs’ claims under  
 10 18 U.S.C. § 2511(c). *See* Mot. at 11 (“there are no allegations that Google *disclosed* Plaintiffs’  
 11 communications to a third party for the purpose of targeting advertisements” (emphasis in  
 12 original)). Plaintiffs Galvan and E.G. allege that, for the purposes of targeted advertising,  
 13 Defendants disclosed the contents of E.G.’s conversations to YouTube:

14  
 15 Several times, topics of Plaintiff Galvan’s and Plaintiff E.G.’s  
 16 private conversations were used to target advertisements to them. In  
 17 one such instance, Plaintiff E.G. was doing research on Los Angeles  
 18 gangs and was having a conversation regarding these gangs during  
 19 her parents’ childhood (who both grew up in the inner city).  
 20 Following this conversation, Plaintiff E.G. received targeted  
 advertising in the form of suggested videos by YouTube, a Google-  
 owned company. The video concerned an individual whose name  
 was specifically mentioned in the conversation. Plaintiffs Galvan  
 and E.G. have recognized that other ads have been targeted to them  
 following their private conversations in their home.

21 3AC ¶ 33. According to Defendants, these allegations fail as a matter of law because “E.G. does  
 22 not allege that Google disclosed the conversation to any third party, as YouTube is not a third party,  
 23 but rather ‘a Google-owned company.’” Mot. at 12 (quoting 3AC ¶ 33, citing Bali Decl., Exh. B at  
 24 19, 35). In response, Plaintiffs argue that whether YouTube is a third party entity is a factual  
 25 question that requires interrogation into the nature of the relationship between Defendants and  
 26 YouTube. While the relationship between a defendant and a third party entity often may require a  
 27 factual interrogation in some circumstances, there are no allegations in the current pleading to  
 28

1 suggest that YouTube is a third party. This is true even when construing Plaintiffs' allegations in a  
2 light most favorable to their claims. Indeed, the pleading itself states that YouTube is a Google-  
3 owned company. 3AC ¶ 33. Accordingly, the Court DISMISSES WITHOUT LEAVE TO AMEND  
4 Galvan and E.G.'s Wiretap Act claim to the extent it is predicated on unlawful disclosure for the  
5 purpose of targeted advertising.

6           Meanwhile, Kumandan alleges that, for the purposes of targeted advertising, Defendants  
7 disclosed the contents of his conversation to Instagram:

8                           On at least one occasion, the subject matter of a conversation  
9 between Plaintiff Kumandan and his wife were used to target  
10 advertisements to Plaintiff Kumandan. In one such instance,  
11 Plaintiff Kumandan was speaking to his wife about BBQ sauces.  
12 Plaintiff Kumandan did not search for or otherwise interact with  
13 Google regarding the same subject matter. Following this  
14 conversation, Plaintiff Kumandan received targeted advertisement  
15 where an ad for a BBQ sauce was displayed on Plaintiff  
16 Kumandan's Instagram page.

17 3AC ¶ 40. Defendants take an everything-but-the-kitchen-sink approach to Kumandan's pleading,  
18 arguing that there is no allegation that this conversation occurred near Kumandan's GAED, no  
19 allegation as to the temporal gap between the conversation recording and the targeted advertising,  
20 and no allegation that Google disclosed Kumandan's conversation to Instagram. Mot. at 11.

21           None of these arguments carry the day. First, the Court has already found that Kumandan  
22 properly alleged that the conversation occurred near his Google Pixel. Second, the Court is unaware  
23 of any authority suggesting that Kumandan needs to specify the exact time period between his  
24 alleged conversation and the targeted Instagram advertisement. Viewing the pleadings in the light  
25 most favorable to Plaintiffs, the Court finds it sufficient that Kumandan pled that the targeted  
26 advertisement occurred after the identified intercepted conversation. Finally, the Court rejects  
27 Defendants' argument that Plaintiffs must allege the specific mechanics behind Google's alleged  
28 disclosure to Instagram. *See* Mot. at 11 ("there are no facts at all connecting the advertisement that  
was displayed on Instagram to Google or the Assistant, and [Plaintiffs'] attempt to draw such a

1 connection is pure speculation”). While Google suggests that Kumandan’s pleadings are wholly  
2 speculative, the Court finds it eminently plausible that Google disclosed Kumandan’s intercepted  
3 conversations to Instagram, thus enabling Instagram to provide Kumandan with targeted  
4 advertisements.

5 Finally, Defendants argues that “to the extent Plaintiffs contend that Google *used*  
6 Kumandan’s and/or E.G.’s conversations to target advertisements, such use is expressly permitted  
7 under the Privacy Policy and thus not actionable.” Mot. at 12 (emphasis in original). The Privacy  
8 Policy, of which the Court has taken judicial notice, contains a section entitled “Information we  
9 collect as you use our services.” Bali Decl., Exh. B at 29. That section states, “We collect  
10 information about your activity in our services, which we us to do things like recommend a  
11 YouTube video you might like.” *Id.*; *see also id.* at 23 (Google “collect[s] information about your  
12 activity in our services, which we use to do things like recommend a YouTube video you might  
13 like.”).

14  
15  
16 In the Court’s previous order, it found that Google’s Privacy Policy was too vague to  
17 conclusively establish consent to *disclosure* of the recordings. *See* Order on Motion to Dismiss at  
18 21-22. The Court now finds that Google’s Privacy Policy is too vague to conclusively establish  
19 consent to *use* of the recordings. The question before the Court is whether the Privacy Policy  
20 adequately indicated to users that Defendants would use recordings made absent manual activation  
21 or the utterance of a hot word, such that users could fairly be said to have “agreed” to these  
22 disclosures. *In re Facebook, Inc., Consumer Privacy User Profile Litig.*, 402 F. Supp. 3d 767, 789  
23 (N.D. Cal. 2019). The Court considers this question “objectively, from the perspective of a  
24 reasonable . . . user.” *Id.* The Court find that while Google’s Privacy Policy does disclose that it  
25 will collect and use information for targeted advertising, it does not sufficiently apprise users that  
26 it will use recordings made in the absence of manual activation or a hot word utterance. *See In re*  
27 *Facebook, Inc., Consumer Privacy User Profile Litigation*, 402 F. Supp. 3d at 792 (“Although  
28

1 Facebook points to a section in its Data Use Policy entitled ‘Service Providers’ which says ‘we give  
 2 your information to the people and companies that help us provide, understand, and improve the  
 3 services we offer,’ that statement does not come close to disclosing the massive information-sharing  
 4 program with business partners that the plaintiffs allege in the complaint.”). As such, it cannot serve  
 5 as a valid consent.

6  
 7 **C. Count 2: Stored Communications Act**

8 Count 2 alleges violations of the Stored Communications Act (“SCA”). As the Ninth Circuit  
 9 has explained, the SCA is modeled off the common law of trespass. *Theofel v. Farey-Jones*, 359  
 10 F.3d 1066, 1072–73 (9th Cir. 2004). “Just as trespass protects those who rent space from a  
 11 commercial storage facility to hold sensitive documents, the Act protects users whose electronic  
 12 communications are in electronic storage with an ISP or other electronic communications facility.”  
 13 *Id.* (internal quotations and citations omitted). An ECS provider “shall not knowingly divulge to any  
 14 person or entity the contents of a communication while in electronic storage by that service”; if it  
 15 does so, it is liable for unlawful disclosure of customer communications under § 2702(a). 18 U.S.C.  
 16 § 2702(a)(1). Defendants now argue that, as with Plaintiffs’ Wiretap Act claims, “there are no  
 17 factual allegations supporting any contention that Google disclosed information to third parties for  
 18 the purpose of targeted advertising.” Mot. at 12. Accordingly, Defendants request that the Court  
 19 dismiss Plaintiffs’ unlawful disclosure claim under 18 U.S.C. § 2702(a)(1) based on targeted  
 20 advertising.

21 The Court has dismissed Plaintiffs Spurr, B.S., Galvan, E.G., Brekhus, and Hernandez’s  
 22 Wiretap Act claims under 18 U.S.C. § 2511(c) based on a theory of targeted advertising. *See* Section  
 23 III.B. Accordingly, the Court DISMISSES WITHOUT LEAVE TO AMEND any SCA claim based  
 24 on targeting advertising by Plaintiffs Spurr, B.S., Galvan, E.G., Brekhus, and Hernandez.

25 **D. Count 6: Common Law Breach of Contract**

26 Count 6 is a claim for breach of contract based on Defendants’ Terms of Service (“TOS”)  
 27 and the Privacy Policy contained therein. 3AC ¶¶ 181-196. In order to plead a claim for breach of  
 28 contract, Plaintiffs must allege: (1) the existence of a contract with Defendants, (2) their

1 performance under that contract, (3) Defendants breached that contract, and (4) they suffered  
 2 damages. *In re Facebook, Inc. Internet Tracking Litig.*, 2020 WL 1807978, at \*14 (citing *Oasis*  
 3 *West Realty, LLC v. Goldman*, 51 Cal. 4th 811, 821 (2011)). Defendants move to dismiss on the  
 4 grounds that Plaintiffs fail to (1) plead how any website is incorporated into the Terms of Service  
 5 (“TOS”), (2) identify any conduct by Google that is in breach of any contractual term, or (3)  
 6 identify any damages suffered by Plaintiffs. *See* Mot. at 13-18.

7 **i. Specific Contractual Provisions: FAQ in the Nest Help Center**

8 In the Court’s order considering Defendants’ previous motion to dismiss, it found that  
 9 Plaintiffs adequately identified certain provisions of Google’s Privacy Policy. Order on Motion to  
 10 Dismiss at 33-34. This Court found, however, that certain identified provisions of the Privacy  
 11 Policy could not form the basis for a breach of contract claim because the operative complaint  
 12 made no reference to such provisions. *Id.* at 34 (“The Consolidated FAC makes no reference to  
 13 this provision, which means the Court cannot consider it to be alleged for purposes of the instant  
 14 motion.”). Finally, the Court concluded that Plaintiffs were unable to base their contract claim on  
 15 provisions from “different websites, including the ‘Google Nest Help Center’ and the ‘Google  
 16 Safety Center’” because the websites were not binding on the parties. *Id.* at 34-35 (“But this vague  
 17 statement is hardly sufficient to establish that the particular websites cited by Plaintiffs are part of  
 18 the TOS or otherwise are binding upon the parties.”).

19 Defendants now argue that the FAQ in the Nest Help Center is not incorporated into  
 20 Google’s Terms of Service, and therefore cannot be the basis for a breach of contract claim. Mot.  
 21 at 13-14. Plaintiffs respond that “[c]ontrary to Google’s argument, the allegations regarding  
 22 Google’s breach are not premised on the FAQs referenced in the [3]AC. Rather, the citation to the  
 23 FAQs is simply included to aid the interpretation of the potentially ambiguous term ‘use audio  
 24 features’ in the context of GAEDs.” Opp. at 12. Accordingly, the Court DISMISSES Plaintiffs’  
 25 breach of contract claim to the extent that it is premised on the FAQ in the Nest Help Center.

26 **ii. Breach**

27 The Court now turns to whether Plaintiffs have alleged that Defendants breached the terms  
 28 of the Privacy Policy. Plaintiffs allege that they entered into a valid contract with Google, “which

1 Google breached in three separate and distinct ways: (1) by recording Plaintiffs’ private  
 2 conversations when they are not using their Google Assistant Enabled Devices; (2) by disclosing  
 3 to third parties Plaintiffs’ private conversations without their consent; and (3) by changing the way  
 4 Defendants collected and used information without Plaintiffs’ knowledge or consent.” 3AC ¶ 236.  
 5 According to Defendants, Plaintiffs have failed to plausibly plead facts to support their claims.  
 6 Mot. at 14-16.

7 Plaintiffs adequately allege the first two identified theories of breach, but miss the mark on  
 8 the third. Plaintiffs’ first theory—that Google breached the Privacy Policy by recording Plaintiffs’  
 9 private conversations when they are not using their GAEDs—is predicated on the following  
 10 Privacy Policy provision:

11 **Your activity**

12 We collect information about your activity in our services, which  
 13 we use to do things like recommend a YouTube video you might  
 14 like. The activity information we collect may include:

15 ...

- 16 • Voice and audio information when you use audio features.

17 Bali Decl., Exh. B at 21; TAC ¶ 242. Defendants claim that Plaintiffs have failed to allege a  
 18 breach of this provision because it “does not say that Google will collect audio information only  
 19 when the user utters a hotword or manually activates the device. . . . audio features are being used  
 20 when the Assistant is activated; there is nothing in this provision limiting the meaning of ‘use’ to  
 21 only *intentional* uses.” Mot. at 14-15 (emphasis added). In other words, Defendants ask the Court  
 22 to find as a matter of law that this provision is broad enough to permit Google to record  
 23 conversations even where a hotword on manual activation does not occur.

25 The Court declines to do so. At the motion to dismiss stage, the Court must draw all  
 26 reasonable inferences in favor of Plaintiffs. *See Retail Prop. Trust v. United Bhd. of Carpenters &*  
 27 *Joiners of Am.*, 768 F.3d 938, 945 (9th Cir. 2014). Under this standard, the Court cannot conclude  
 28

1 that the Privacy Policy provision’s reference to the “*use* [of GAED] audio features” applies to  
 2 scenarios in which the Plaintiffs do not affirmatively use GAED audio features, but the GAED  
 3 nonetheless records audio. TAC ¶ 242 (emphasis added); *see also* Transcript (“Tr.”) at 7:3-10  
 4 (“[THE COURT:] In my view the Plaintiffs have [it] right that audio features are used when the  
 5 consumer chooses to use them, not when the device mistakenly or otherwise picks up unintended  
 6 conversations. And so I think it is at least a reasonable inference that the phrase ‘when audio  
 7 features are used’ really is limited to when there is a decision to manually engage or to state a  
 8 hotword.”). And while Defendants stress that “the Nest FAQ make clear that Google Home  
 9 records conversations when a hotword is ‘detected’ not when it is spoken,” Mot. at 15, they  
 10 simultaneously argue that the Nest FAQ is not incorporated into the Privacy Policy and is thus not  
 11 a proper basis of Plaintiffs’ breach of contract claim, Mot. at 13-14.

12  
 13 Plaintiffs’ second theory—that Google breached the Privacy Policy by disclosing to third  
 14 parties Plaintiffs’ private conversations without their consent—is predicated on the following  
 15 Privacy Policy provision:

16  
 17 **When Google shares your information**

18 We do not share personal information with companies,  
 19 organizations, or individuals outside of Google except in the  
 20 following cases:

21 **With your consent**

22 We’ll share personal information outside of Google when we have  
 23 your consent. For example, if you use Google Home to make a  
 24 reservation through a booking service, we’ll get your permission  
 25 before sharing your name or phone number with the restaurant.  
 26 We’ll ask for your explicit consent to share any sensitive personal  
 27 information.

28 **With domain administrators**

...

**For external processing**

1 We provide personal information to our affiliates and other trusted  
 2 businesses or person to process it for us, based on our instructions  
 3 and in compliance with our Privacy Policy and any other appropriate  
 4 confidentiality and security measures.

5 **For legal reasons**

6 . . .

7 Bali Decl., Exh. B at 29; TAC ¶¶ 245, 251. Defendants contend that they have not breached this  
 8 provision solely because “this Court already found that the Privacy Policy permits disclosure ‘for  
 9 external processing’ without consent.” Mot. at 16 (citing Order on Motion to Dismiss at 35). But  
 10 the Court’s determination was driven by its finding that the operative complaint did “not  
 11 adequately plead that Plaintiffs’ ‘personal information’ has been shared. The vague and  
 12 conclusory allegation that Plaintiffs ‘private conversations’ were recorded and disclosed does not  
 13 suffice.” Order on Motion to Dismiss at 35. As the Court explained at length above, this  
 14 deficiency has now been rectified. And the parties do not dispute that Plaintiffs have not consented  
 15 to the disclosure of their personal information. Mot. at 16; Opp. at 15. This theory of breach may  
 16 thus proceed.

17 Plaintiffs’ third theory—that Google breached the Privacy Policy by changing the way  
 18 Defendants collected and used information without Plaintiffs’ knowledge or consent—is  
 19 predicated on the following Privacy Policy provision:

20 The information Google collects, and how that information is used,  
 21 depends on how you use our services and how you manage your  
 22 privacy controls.

23 Bali Decl., Exh. B at 29; TAC ¶¶ 252. According to Plaintiffs Brekhus and Hernandez, Defendants  
 24 breached this provision because

25 [Google] changed the method that [it] collected information and  
 26 changed the way the information was used without regard to how  
 27 Plaintiffs and the Purchaser Subclass used the services or managed  
 28 their privacy controls, without notice to or consent by Plaintiffs. As  
 alleged herein, Google changed the method of collecting  
 information from being based on actions by the user, such as

1 manual activation or using “hot words,” to being based on  
2 sounds not made by the user necessarily, but by other items in the  
home such as smoke alarms, glass breaking, or other noises.

3 TAC ¶¶ 253. But nothing in the identified contract provision suggests that Google is contractually  
4 prohibited from making changes to how it collects or uses consumer information. Tr. at 7:14-16  
5 (“[THE COURT:] I haven't actually seen anything in the pleading that would tell me that Google  
6 promised not to do that.”), 38:22-25 (“[THE COURT:] You have pointed to nothing in the  
7 documents -- in the contracts that tells me that Google promised to never update and -- or to say:  
8 We promise we will never do a software update you don't like.”), 40:12-13 (“[THE COURT:] You  
9 are basically suing on a bug that was unintentional, claiming it to be a breach of contract.”). And  
10 Plaintiffs do not point this Court to a *single* instance where another court has allowed a similar  
11 theory of breach to proceed. *See* Opp. at 16-17. Accordingly, the Court DISMISSES the third  
12 theory of Plaintiffs’ contract claim WITHOUT LEAVE TO AMEND.

### 13 **iii. Damages**

14 Plaintiffs proffer three damages theories: (1) benefit of the bargain, (2) “harm to  
15 [Plaintiffs’] “privacy interests,” and (3) “disgorgement of profits made by Google as a result of its  
16 breach of contract.” 3AC ¶¶ 254-256; *see* Opp. at 17-18. Defendants believe all of these theories  
17 to be flawed. *See* Mot. at 17-18.

18 The first theory is benefit of the bargain damages: “the services Plaintiffs . . . received in  
19 exchange for the purchase price of Google Assistant Enabled Devices were worth less than the  
20 services they paid for because Plaintiffs’ information was recorded without their consent and  
21 divulged to third parties.” 3AC ¶ 254. Also known as expectation damages, a benefit of the  
22 bargain measure of damages is intended “to give the injured party the benefit of his bargain and  
23 insofar as possible to place him in the same position he would have been in had the promisor  
24 performed the contract.” *Coughlin v. Blair*, 262 P.2d 305, 314 (Cal. 1953); *see also Twin City Fire*  
25 *Ins. Co. v. Philadelphia Life Ins. Co.*, 795 F.2d 1417, 1425 (9th Cir. 1986).

26 Courts have approved damages based on benefit of the bargain in several technology cases  
27  
28

1 involving privacy. For instance, in *In re Yahoo! Inc. Customer Data Sec. Breach Litig.*, Plaintiff  
 2 Mortensen alleged that he paid “\$19.95 each year since December 2007 for Yahoo’s premium  
 3 email service” but did not acquire the full value of Yahoo’s service because it was not secure. 313  
 4 F. Supp. 3d 1113, 1130 (N.D. Cal. 2018). There, Plaintiff Mortensen plausibly lost the benefit of  
 5 the bargain in that he received a less valuable email service than the one he paid for. *See id.*  
 6 Similarly, in *In re Anthem, Inc. Data Breach Litig.*, plaintiffs paid premiums to defendants for  
 7 health insurance plans. No. 15-MD-02617-LHK, 2016 WL 3029783, at \*7-\*8 (N.D. Cal. May 27,  
 8 2016). When the defendants experienced various breaches of its database containing individuals’  
 9 health record information, the plaintiffs alleged, *inter alia*, that the defendants had breached their  
 10 privacy policies. *Id.* at \*9. The Court allowed the plaintiff to pursue a theory of benefit of the  
 11 bargain losses on the theory that some portion of their premiums went toward paying for robust  
 12 security measures, which they allegedly did not receive. *Id.* at \*13.

13 The Court previously found that Plaintiffs failed to allege that they have paid anything to  
 14 Defendants for the GAEDs:

15 Not only does the Consolidated FAC say nothing about any fee or  
 16 premium paid, it appears that the Google Assistant is available free  
 17 of charge for use on Google Assistant Enabled Devices. *See* Consol.  
 18 FAC ¶ 21. As a result, it cannot be said that Plaintiffs received less  
 19 than what they paid for—they appeared to have paid nothing. *See In*  
 20 *re LinkedIn User Privacy Litig.*, 932 F. Supp. 2d 1089, 1093 (N.D.  
 21 Cal. 2013) (rejecting plaintiffs’ benefit of the bargain theory because  
 “the FAC fails to allege that Plaintiffs actually provided  
 consideration for the security services which they claim were not  
 provided”). The Court therefore does not believe that benefit of the  
 bargain is a viable damages theory.

22 Order on Motion to Dismiss at 37.

23 Defendants argue that Plaintiffs B.S., Galvan, E.G., and Brekhus “fail to allege that they  
 24 paid Google anything for the Assistant, much less any privacy protective features.” Mot. at 17.  
 25 And the allegations in the 3AC of Plaintiffs Kumandan, Spurr, and Hernandez, Defendants  
 26 contend, do not rectify the problem the Court previously identified because while they “allege that  
 27 they ‘purchased Google Manufactured Devices,’” they “fail to allege that they paid a premium for  
 28 a certain level of privacy protection they did not receive.” Mot. at 17 (quoting 3AC ¶ 238).

1           The Court easily concludes that Plaintiffs Kumandan, Spurr, and Hernandez have  
2 adequately pled expectation damages. The 3AC explicitly alleges that “Plaintiffs Kumandan,  
3 Spurr, Hernandez and Google Manufactured Device Subclass Members would not have  
4 purchased, or would not have paid as high a price, for the Google Assistant Enabled Devices if  
5 they had known that Google would breach the TOS and Privacy Policy by recording and revealing  
6 Plaintiffs private conversations.” 3AC ¶ 254.

7           The same cannot be said for the remaining Plaintiffs. There is no allegation even  
8 supporting an inference that B.S. even owned a GAED. *See* 3AC ¶ 20 (“Plaintiff Spurr owned at  
9 least three Google Home devices during the Class Period.”). And Brekhuis explicitly alleges that  
10 he obtained his GAED for free via a promotion with third-party company Spotify. 3AC ¶ 46. That  
11 Brekhuis “*would not have paid for Spotify* or ordered the Google Home device . . . had he known  
12 that any of Google’s representations were false,” has no bearing on the benefit of Brekhuis’ bargain  
13 *with Defendants*. 3AC ¶ 55 (emphasis added). Finally, while Plaintiffs Galvan and E.G. allege that  
14 they owned a Samsung smart phone and a Galaxy Tab during the Class Period, 3AC ¶ 29, the  
15 Court cannot infer from this information that they purchased the devices from Google (as opposed  
16 to some other entity). Accordingly, the Court GRANTS Defendants’ motion on this ground as to  
17 Galvan, E.G., B.S. and Brekhuis and DENIES Defendants’ motion on this ground as to Kumandan,  
18 Spurr, and Hernandez.

19           Plaintiffs’ second theory of damages—harm to their privacy interests—is adequately pled.  
20 Generally, a plaintiff may seek damages for “the detriment caused by the breach.” *Stephens v. City*  
21 *of Vista*, 994 F.2d 650, 657 (9th Cir. 1993) (citing Cal. Civ. Code § 3300). In this case, the  
22 detriment Plaintiffs say they suffered was an invasion of their privacy. Plaintiffs are entitled to  
23 seek compensatory damages or perhaps nominal damages for such harm. *See In re Facebook, Inc.,*  
24 *Consumer Privacy User Profile Litig.*, 402 F. Supp. 3d at 802; Cal. Civ. Code § 3360. As  
25 discussed a length above, Plaintiffs have amended their complaint to sufficiently allege an  
26 invasion of their privacy, and the 3AC plausibly alleges that Plaintiffs’ own private conversations  
27 were intercepted. Accordingly, the Court DENIES Defendants’ motion on this ground.

28           Plaintiffs’ third theory of damages is that Plaintiffs are entitled to “disgorgement of the

1 profits Google has obtained as a result of the improved functionality of Google Assistant resulting  
 2 from its sharing of private conversations in breach of its contract with Plaintiff[s] and Class  
 3 Members.” 3AC ¶ 256. The Ninth Circuit has said that “under California law, a defendant’s unjust  
 4 enrichment can satisfy the ‘damages’ element of a breach of contract claim, such that  
 5 disgorgement is a proper remedy.” *Foster Poultry Farms, Inc. v. SunTrust Bank*, 377 Fed. App’x  
 6 665, 669 (9th Cir. 2010) (citing *Ajaxo Inc. v. E\*Trade Group, Inc.*, 135 Cal. App 4th 21, 56-57  
 7 (2005)). The Ninth Circuit has further held that “California law recognizes a right to disgorgement  
 8 of profits resulting from unjust enrichment, even where an individual has not suffered a  
 9 corresponding loss.” *In re Facebook, Inc. Internet Tracking Litig.*, 2020 WL 1807978, at \*5-\*6.

10 To plead a theory of disgorgement, Plaintiffs must show “that they retain a stake in the  
 11 profits garnered.” *Id.* at \*6. The Court previously concluded that

12 Plaintiffs attempt to plead that they are entitled to the “substantial  
 13 profits” that Defendants’ have earned using their “personal  
 14 information” because Defendants’ use was unauthorized. Consol.  
 15 FAC ¶¶ 199-200. But Plaintiffs have not adequately alleged that  
 16 their unspecified “personal information” has financial value or that  
 17 Defendants have profited from the information. Although courts  
 18 have found that individuals’ browsing history may plausibly carry  
 19 financial value, *In re Facebook, Inc. Internet Tracking Litig.*, 2020  
 20 WL 1807978, at \*6., Plaintiffs have not pleaded any description of  
 21 the “personal information” that Defendants’ allegedly used. Without  
 22 such facts, Plaintiffs’ assertion that Defendants garnered  
 23 “substantial profits” from the information is purely conclusory. *See,*  
*e.g., Varga v. Wells Fargo Bank, N.A.*, 796 Fed. App’x 430, 431 (9th  
 24 Cir. 2020) (“Varga’s conclusory assertion that she was ‘deprived of  
 25 the contractual and consumer protections and benefits’ of the notice  
 26 provision is insufficient to plausibly allege” damages.). The Court  
 27 finds that Plaintiffs have plausibly demonstrated that any profits  
 28 were unjustly earned by virtue of Defendants’ use being allegedly  
 unauthorized. *In re Facebook, Inc. Internet Tracking Litig.*, 2020  
 WL 1807978, at \*6.

Order on Motion to Dismiss at 38.

To rectify these defects, the 3AC alleges that “[t]he unlawfully-obtained private  
 conversations have financial value, in that they enabled Google to improve the functionality of the  
 Google Assistant and to better target advertisements to Google users, thereby increasing Google’s  
 revenue.” 3AC ¶ 256. While Defendants argue that this allegation is pure speculation, Mot. at 18,

1 Plaintiffs have offered at least one example of the financial value of their intercepted personal  
 2 information. Plaintiff Kumandan pled that he had a conversation inside his home with his wife  
 3 about BBQ sauce, and that, later, he received a targeted Instagram advertisement for BBQ sauce.  
 4 3AC ¶ 40. Plaintiff also allege that “[i]mproving the functionality of Google Assistant is necessary  
 5 to allow Google to continue to compete with the increasingly crowded virtual assistant market and  
 6 to buttress the price of the Google Manufactured Devices.”). *Id.* ¶ 10. Drawing all inferences in  
 7 favor of Plaintiffs, the Court finds it plausible that Google was able to monetize Plaintiffs’  
 8 unauthorized recordings via targeted advertising and by improving the Google Assistant  
 9 functionality. The Court DENIES Defendants’ motion on this ground.

10 **E. Counts 8 and 9 and Fed. R. Civ. P. 9(b)**

11 In Count 8, Plaintiffs Brekhus and Hernandez allege that Defendants have violated the  
 12 CLRA by making “improper representations” about Google Home devices and by advertising  
 13 Google Home devices “with intent not to sell them as advertised.” 3AC ¶¶ 263-270. In Count 9,  
 14 Plaintiffs Brekhus and Hernandez allege that Defendants have engaged in common law fraud,  
 15 deceit, and/or misrepresentation by “fraudulently and deceptively inform[ing] Plaintiffs that the  
 16 Google Home Product had adequate security measures in place and that Defendants would not  
 17 misuse their personal information.” 3AC ¶¶ 271-278. Defendants move to dismiss both claims,  
 18 arguing that neither claim meets the requisite Fed. R. Civ. P. 9(b) standard. Mot. at 18-20, 22-23.

19 Fraud allegations must be pled “with particularity.” Fed. R. Civ. P. 9(b). To satisfy Rule  
 20 9(b), “a pleading must identify the who, what, when, where, and how of the misconduct charged,  
 21 as well as what is false or misleading about the purportedly fraudulent statement, and why it is  
 22 false.” *Cafasso, U.S. ex rel. v. Gen. Dynamics C4 Sys., Inc.*, 637 F.3d 1047, 1055 (9th Cir. 2011)  
 23 (internal marks omitted). Rule 9(b)’s heightened pleading standard extends to Plaintiffs’ CLRA  
 24 claim as it sounds in fraud. *Kearns v. Ford Motor Co.*, 567 F.3d 1120, 1125 (9th Cir. 2009).  
 25 Plaintiffs do not dispute that the fraud and CLRA claims fall under this standard. *See* Opp. at 21-  
 26 25. They do dispute whether their pleadings meet this standard. *Id.*

27 The Court finds the pleadings as to these claims exceedingly thin. Indeed, the Court  
 28 struggled to identify a specific, cogent theory of fraudulent conduct alleged in the 3AC pursuant to

1 which Brekhus and Hernandez intend to sue. *See* Tr. at 43:19-44:18 (clarifying theory of fraud).  
2 The allegation in the 3AC that Defendants promised “adequate security measures” is vague to the  
3 point of meaninglessness. 3AC ¶ 272 (“Defendants have fraudulently and deceptively informed  
4 Plaintiffs that the Google Home Product had adequate security measures in place and that  
5 Defendants would not misuse their personal information.”). It is Plaintiffs’ responsibility to detail  
6 what these security measures would be, and how Google failed to provide them. *See Cafasso*, 637  
7 F.3d at 1055.

8 In the opposition brief and at the motion hearing, Plaintiffs clarified that their theory of  
9 fraud is predicated on Google’s ability to *expand* the circumstances upon which the GAEDs would  
10 initiate recordings. Opp. at 22 (“the claims are that Google promised that the Google Home  
11 devices would active in only three limited circumstances, when in fact, Google retained the ability  
12 to unilaterally add additional circumstances, and it did so in the form of ‘alarm events.’”); *see also*  
13 Tr. at 43:19-44:12 (“THE COURT: So you are saying that Google had a present intention to  
14 change the terms that it didn't disclose? That's what you are saying? [PLAINTIFFS]: Yes, Your  
15 Honor . . . We allege that at the time they made those representations, they knew that they could  
16 and would change the circumstances under which . . . the devices could record and transmit.”). To  
17 this end, the pleading includes allegations that GAEDs belonging to third parties began recording  
18 audio after the detection of smoke alarms or breaking glass. 3AC ¶¶ 108-109. In response, Google  
19 explained that these recordings were accidental and were triggered by a software update that was  
20 consequently rolled back. *Id.* ¶ 110.

21 Acknowledging that this theory is less amorphous than Plaintiffs’ “adequate security  
22 measures” theory, the Court nonetheless finds that it still falls far short of Rule 9’s requirements.  
23 First, the Court is unable to find where this *unified theory* of fraud is alleged in the complaint.  
24 Instead, Plaintiffs have peppered relevant allegations throughout without providing the Court any  
25 guiding common thread. *Cf. Tinian Women Ass'n v. United States Dep't of the Navy*, 976 F.3d 832,  
26 841 (9th Cir. 2020) (“Potentially relevant facts and regulations are scattered in different parts of  
27 the complaint, and a district court's job is not to piece together a jigsaw puzzle of claims.”). And,  
28 even ignoring this flaw, the 3AC is void of facts that so much as suggest that (1) Brekhus and

1 Hernandez justifiably and detrimentally relied on Defendants' alleged misrepresentations or (2)  
 2 Google, *at the time of the alleged misrepresentations*, had the intent to mislead or omit material  
 3 information about the future circumstances under which the GAEDs would record audio. Plaintiffs  
 4 must plead additional facts that establish these "indispensable elements of fraud." *Vess v. Ciba-*  
 5 *Geigy Corp. USA*, 317 F.3d 1097, 1105 (9th Cir. 2003) ("indispensable elements of a fraud claim  
 6 include a false representation, knowledge of its falsity, intent to defraud, justifiable reliance, and  
 7 damages" (internal marks and citation omitted).

8 The Court GRANTS Defendants' motion to dismiss Counts 8 and 9. While the Court  
 9 remains skeptical that Plaintiffs can fix the identified defects, because this is the first instance the  
 10 Court has had to consider these claims, Plaintiffs are allowed LEAVE TO AMEND. *See Eminence*  
 11 *Capital, LLC v. Aspeon, Inc.*, 316 F.3d 1048, 1052 (9th Cir. 2003) (citing *Foman v. Davis*, 371  
 12 U.S. 178, 182 (1962)).

13 **F. Count 7: California UCL**

14 Count 7 is brought under California's Unfair Competition Law ("UCL"), which prohibits  
 15 any "unlawful, unfair or fraudulent business practice and unfair, deceptive, untrue or misleading  
 16 advertising." Cal. Bus. & Prof. Code § 17200. The California Supreme Court has clarified that the  
 17 UCL, because it is "written in the disjunctive," prohibits three separate types of unfair  
 18 competition: (1) unlawful acts or practices, (2) unfair acts of practices, and (3) fraudulent acts or  
 19 practices. *Cel-Tech Commc'ns, Inc. v. Los Angeles Cellular Tel. Co.*, 20 Cal. 4th 163, 180 (1999);  
 20 *accord Davis v. HSBC Bank Nevada, N.A.*, 691 F.3d 1152, 1168 (9th Cir. 2012). To plead a UCL  
 21 claim, a plaintiff's allegations must show that a defendant's conduct violates one of these three  
 22 "prongs." *Id.* In addition, because a UCL claim may only be brought by "a person who has  
 23 suffered injury in fact and has lost money or property as a result of the unfair competition," Cal.  
 24 Bus. & Prof. Code § 17204, a plaintiff must "demonstrate some form of economic injury."  
 25 *Kwikset Corp. v. Superior Court*, 51 Cal. 4th 310, 323 (2011). This requirement is sometimes  
 26 referred to as "UCL standing." *Id.* at 320-21.

27 In their motion to dismiss, Defendants contend that Plaintiffs have failed to allege  
 28 economic injury, which would preclude any UCL claim. Mot. at 20-21. Defendants also challenge

1 the sufficiency of Plaintiffs’ allegations as to both of the UCL prongs alleged (“unlawful” and  
2 “unfair”). Mot. at 23-24.

3 **i. Economic injury**

4 The Court begins by addressing Defendants’ contention that Plaintiffs have not alleged  
5 economic injury, as necessary to bring a UCL claim. Mot. at 20. Under California law, a UCL  
6 plaintiff must “(1) establish a loss or deprivation of money or property sufficient to qualify as  
7 injury in fact, i.e., economic injury, and (2) show that that economic injury was the result of, i.e.,  
8 caused by, the unfair business practice or false advertising that is the gravamen of the claim.”  
9 *Kwikset Corp. v. Superior Court*, 51 Cal. 4th 310, 322 (2011). “There are innumerable ways in  
10 which economic injury” may be shown; for instance:

11 A plaintiff may (1) surrender in a transaction more, or acquire in a  
12 transaction less, than he or she otherwise would have; (2) have a  
13 present or future property interest diminished; (3) be deprived of  
14 money or property to which he or she has a cognizable claim; or (4)  
15 be required to enter into a transaction, costing money or property, that  
16 would otherwise have been unnecessary.

17 *Id.* at 323.

18 In the instant case, Plaintiffs advance two theories of economic injury. First, Plaintiffs  
19 allege overpayment for their Google Assistant Enabled Devices, i.e. “that had they known their  
20 private communications would be intercepted, recorded, disclosed, and misused, they would not  
21 have made their purchase, or would have paid less for them. Opp. at 18 (citing 3AC ¶¶ 11, 126,  
22 254, 261). Certainly, overpayment is an economic injury under the UCL. *See, e.g., Davidson v.*  
23 *Kimberly-Clark Corp.*, 889 F.3d 956, 966 (9th Cir. 2018), *cert. denied*, 139 S. Ct. 640 (2018). The  
24 question becomes whether Plaintiffs have pleaded sufficient facts to establish overpayment here.

25 This Court previously held that the complaint sufficiently alleged that “Plaintiffs  
26 Kumandan and Spurr ‘purchased their Google Manufactured Device either directly from Google  
27 or from actual or apparent agents of Google.’” Order on Motion to Dismiss at 45 (quoting Consol.  
28 FAC ¶ 215). Neither the 3AC, nor Defendants’ motion, changes that conclusion. *See U.S. v.*  
*Alexander*, 106 F.3d 874, 876 (9th Cir. 1997); *see also* Reply at 14 (“Plaintiffs B.S., Galvan, E.G.,  
Brekhus, and Hernandez have not alleged economic loss”). The Court thus turns to consider the

1 allegations of Galvan, E.G., B.S., Brekhus, and Hernandez.

2 Defendants maintain that the 3AC contains insufficient details regarding Plaintiffs’  
3 purchase of their GAEDs. Mot. at 20. According to Defendants, the 3AC does not allege that  
4 Plaintiffs purchased and overpaid for their devices. *Id.* They continue: “Plaintiffs contend  
5 generally that they ‘would not have purchased a [GAED], or would have paid less’ had they  
6 known about Google’s alleged conduct ([3]AC ¶ 261), but absent any further detail explaining  
7 how Plaintiffs suffered an economic loss from a service they paid nothing for, this is nothing more  
8 than a legal conclusion.” *Id.*

9 That is true of Named Plaintiff B.S., who allegedly interacted with a GAED that she did  
10 not own. 3AC ¶ 20 (“Plaintiff Spurr owned at least three Google Home devices”). It is also true of  
11 Named Plaintiffs Galvan and E.G., who allegedly interacted with devices not manufactured by  
12 Defendants, a Samsung smartphone and the Samsung Galaxy Tab, *id.* ¶ 29, and Named Plaintiff  
13 Brekhus, who interacted from a device he received for free pursuant to his paid Spotify  
14 subscription, *id.* ¶ 46. Because these Named Plaintiffs have failed to allege that they paid any  
15 money for a Google Assistant Enabled Device, they cannot have been injured by overpayment.  
16 *See* Order on Motion to Dismiss at 45. Named Plaintiff Hernandez, however, alleges that he  
17 purchased a Google Home Mini device from Best Buy in December 2018. 3AC ¶ 62. He also  
18 alleges that he “would not have purchased the Google Home device, nor would he have set it up or  
19 used it, had he known that any of Google’s representations [about activation phrases and manual  
20 activation] were false.” *Id.* ¶ 66. The Court therefore finds that Plaintiff Hernandez has plausibly  
21 alleged that he would not have purchased his GAED, or would have paid less for it, if he had been  
22 aware of Defendants’ practices with regard to false accepts.

23 Plaintiffs’ second theory of economic injury is that they have a “property interest” in the  
24 recordings that were unlawfully obtained by Google and that they are therefore entitled to  
25 restitution. 3AC ¶¶ 261-62; *see* Opp. at 19 (citing *Korea Supply Co. v. Lockheed Martin Corp.*, 29  
26 Cal. 4th 1134, 1144 (2003)). According to Plaintiffs, “Google profited from the use of Plaintiffs’  
27 unauthorized recordings by using them to improve the functionality of Google Assistant and for  
28 targeted advertising.” Opp. at 23. The California Supreme Court has “defined an order for

1 ‘restitution’ as one ‘compelling a UCL defendant to return money obtained through an unfair  
2 business practice to those persons in interest from whom the property was taken.’” *Korea Supply*  
3 *Co.*, 29 Cal. 4th at 1144. In other words, restitution under the UCL must “restore the status quo”  
4 by “returning to the plaintiff” funds taken from him or “benefits in which the plaintiff has an  
5 ownership interest.” *Id.* at 1148-49; *see also Hadley v. Kellogg Sales Co.*, 324 F. Supp. 3d 1084,  
6 1113 (N.D. Cal. 2018) (“[I]t is well-established that nonrestitutionary disgorgement, which  
7 focuses on the defendant’s unjust enrichment, is unavailable in a ... class action under the FAL,  
8 CLRA, and UCL.” (internal quotation marks omitted)). Defendants object, and contend that  
9 Plaintiffs fail to allege that their voice recordings have any value or, in the alternative, that  
10 Plaintiffs fail to connect such value to “a realistic economic harm or loss that is attributable to  
11 [Google’s] alleged conduct.” Mot. at 20-21 (quoting *In re Facebook Internet Tracking Litig.*, 140  
12 F.Supp.3d 922, 931 (N.D. Cal. 2015)).

13 The Court finds that Plaintiffs’ theory of economic loss here is “purely hypothetical.” *In re*  
14 *Facebook, Inc., Consumer Priv. User Profile Litig.*, 402 F. Supp. 3d 767, 804 (N.D. Cal. 2019);  
15 *see also id.* at 784 (“The plaintiffs do not plausibly allege that they intended to sell their non-  
16 disclosed personal information to someone else.”). While Plaintiffs contend that the value of their  
17 “voice recordings can be inferred by the fact that Google uses them to improve the functionality of  
18 Google Assistant and to target advertising,” Opp. at 19, there are no facts to suggest that Plaintiffs  
19 intended to monetize their individual voice recordings, nor is there any facts that suggest there is a  
20 market in which Plaintiffs could sell such recordings. That Defendants were able to monetize and  
21 profit from the unauthorized recordings does not give rise to an inference that Plaintiffs “lost  
22 money or property,” Cal. Bus. & Prof. Code § 17204. As another court in this district has  
23 explained, claiming that a defendant “may have gained money through its sharing or use of the  
24 plaintiffs’ information” is “different from saying the plaintiffs lost money.” *In re Facebook, Inc.,*  
25 *Consumer Privacy User Profile Litig.*, 402 F. Supp. 3d at 804. And while Plaintiffs cite to *In re*  
26 *Facebook, Inc. Internet Tracking Litigation* in a Hail Mary attempt to save this theory, there, the  
27 Ninth Circuit discussed the value of Facebook user’s browsing histories in the context of the  
28 Computer Data and Access Fraud Act (“CDAFA”), disgorgement, and Article III standing. 956

1 F.3d 589, 600-601 (9th Cir. 2020), *cert. denied sub nom. Facebook, Inc. v. Davis*, 141 S. Ct. 1684  
 2 (2021) (“California law requires disgorgement of unjustly earned profits<sup>1</sup> regardless of whether a  
 3 defendant's actions caused a plaintiff to directly expend his or her own financial resources . . . This  
 4 unauthorized use of their information for profit would entitle Plaintiffs to profits unjustly earned.  
 5 Thus, Plaintiffs sufficiently alleged a state law interest whose violation constitutes an injury  
 6 sufficient to establish standing to bring their claims for CDAFA violations and California common  
 7 law trespass to chattels, fraud, and statutory larceny.”). Indeed, the “requirement that injury be  
 8 economic renders standing under section 17204 substantially narrower than federal standing under  
 9 [Article III], which may be predicated on a broader range of injuries. *Kwikset Corp.*, 51 Cal. 4th at  
 10 324.

11 In sum, the Court GRANTS Defendants’ motion to dismiss Galvan, E.G., B.S., and  
 12 Brekhus’s UCL claims for failure to adequately plead economic injury. Plaintiffs Kumandan,  
 13 Spurr, and Hernandez have adequately plead economic injury. Because their UCL claims shall go  
 14 forward, the Court proceeds to consider of the adequacy of Plaintiffs Kumandan, Spurr, and  
 15 Hernandez’s pleadings under the unlawful and unfair prongs of the UCL.

---

16  
 17 <sup>1</sup> This Court has already stressed the difference between disgorgement—which the Ninth Circuit  
 18 considered in *In re Facebook, Inc. Internet Tracking Litigation*—and restitution—which Plaintiffs  
 19 seek here:

20 “Disgorgement’ is a broader remedy than restitution” in that  
 21 disgorgement “has been used to refer to surrender of all profits  
 22 earned as a result of an unfair business practice regardless of  
 23 whether those profits represent money taken directly from persons  
 24 who were victims of the unfair practice.” [*Korea Supply Co.*, 29 Cal.  
 25 4th] at 1145 (emphasis in original). By contrast, restitution under the  
 26 UCL must “restore the status quo” by “returning to the plaintiff”  
 27 funds taken from him or “benefits in which the plaintiff has an  
 28 ownership interest.” *Id.* at 1148-49. Put another way, restitutionary  
 disgorgement “focuses on the plaintiff’s loss, and nonrestitutionary  
 disgorgement “focuses on the defendant’s unjust enrichment.”  
*Meister v. Mensinger*, 230 Cal. App. 4th 381, 398 (2014). Although  
 the defendant’s benefit and the plaintiff’s loss are often the same,  
 nonrestitutionary disgorgement may also be had “where a benefit  
 has been received by the defendant but the plaintiff has not suffered  
 a corresponding loss.” *Id.* (internal quotations and alterations  
 omitted).

Order on Motion to Dismiss at 46.

**i. Unlawful Prong**

The “unlawful” prong of the UCL “borrows violations of other laws and treats them as unlawful practices that the unfair competition law makes independently actionable.” *Cel-Tech*, 20 Cal. 4th at 180. In other words, to be “unlawful” under the UCL, Defendants’ conduct must violate another “borrowed” law. *HSBC Bank Nevada*, 691 F.3d at 1168. “Virtually any state, federal or local law can serve as the predicate for an action under section 17200.” *Id.* (quoting *People ex rel. Bill Lockyer v. Fremont Life Ins. Co.*, 104 Cal. App. 4th 508, 515 (2002)) (alterations omitted). Here, Plaintiffs predicate their “unlawful” claim on Defendants’ alleged violations of (1) the Wiretap Act, (2) the SCA, (3), CIPA §632, (4) the common law prohibition of intrusion upon seclusion, (5) the California Constitution’s right of privacy, (6) the CLRA, and (7) Cal. Bus. & Prof. Code § 22576,<sup>2</sup> for having breached the Privacy Policy. Opp. at 20; 3AC ¶ 258.

Because Plaintiffs assert each of these alleged violations as independent counts, the Court has already considered the adequacy of Plaintiffs’ allegations as to those counts. The Court’s findings in that regard are equally determinative of the validity of Plaintiffs’ UCL claim. See Mot. at 24 (“To the extent this claim is premised on other claims that are subject to dismissal, Plaintiffs’ ‘unlawful’ UCL claim fails as well.”). The Court has not dismissed any of these claims in full but has narrowed them where appropriate; accordingly, the Court **DISMISSES WITHOUT LEAVE TO AMEND** Plaintiffs’ UCL unlawful claim to the extent it is predicated on aspects of predicate claims the Court has dismissed.

**ii. Unfair Prong**

---

<sup>2</sup> This provision states:

An operator of a commercial Web site or online service that collects personally identifiable information through the Web site or online service from individual consumers who use or visit the commercial Web site or online service and who reside in California shall be in violation of this section if the operator fails to comply with the provisions of Section 22575 or with the provisions of its posted privacy policy in either of the following ways:

- (a) Knowingly and willfully.
- (b) Negligently and materially.

Cal. Bus. & Prof. Code § 22576. Plaintiffs allege that Defendants violate this provision by virtue of its breach of contract, as alleged in Count 6. See 3AC ¶¶ 241, 258.

1 Plaintiffs allege that Defendants have “engaged in business acts or practices deemed  
2 ‘unfair’ under the UCL.” 3AC ¶ 259. “The UCL does not define the term ‘unfair.’ In fact, the  
3 proper definition of ‘unfair’ conduct against consumers is currently in flux among California  
4 courts.” *Hodsdon v. Mars, Inc.*, 891 F.3d 857, 866 (9th Cir. 2018) (internal quotations omitted).  
5 For some years, the California Courts of Appeal formulated different tests, such as whether the  
6 practice “offends an established public policy or when the practice is immoral, unethical,  
7 oppressive, unscrupulous or substantially injurious to consumers,” *Cel-Tech*, 20 Cal. 4th at 184  
8 (quoting *S. Bay Chevrolet v. Gen. Motors Acceptance Corp.*, 72 Cal. App. 4th 861, 887 (1999))  
9 (“*South Bay test*”), or whether “the gravity of the harm to the alleged victim” outweighs “the  
10 utility of the defendant’s conduct,” *id.* (quoting *State Farm Fire & Casualty Co. v. Superior*  
11 *Court*, 45 Cal. App. 4th 1093, 1104 (1996)) (“*State Farm Fire test*”). Then, in *Cel-Tech*, the  
12 California Supreme Court appeared to confine “unfair” to “conduct that threatens an incipient  
13 violation of an antitrust law, or violates the policy or spirit of one of those laws because its effects  
14 are comparable to or the same as a violation of the law, or otherwise significantly threatens or  
15 harms competition.” 20 Cal. 4th at 187. “It further required that ‘any finding of unfairness to  
16 competitors under section 17200 be tethered to some legislatively declared policy or proof of some  
17 actual or threatened impact on competition.’” *HSBC Bank Nevada*, 691 F.3d at 1170 (quoting *Cel-*  
18 *Tech*, 20 Cal. 4th at 185). The *Cel-Tech* Court explained that the prior definitions were “too  
19 amorphous” and “provide[d] too little guidance to courts and businesses.” *HSBC Bank Nevada*,  
20 691 F.3d at 1169 (quoting *Cel-Tech*, 20 Cal. 4th at 185).

21 However, the *Cel-Tech* court expressly limited its decision, stating, “Nothing we say  
22 relates to actions by consumers or by competitors alleging other kinds of violations of the unfair  
23 competition law such as ‘fraudulent’ or ‘unlawful’ business practices or ‘unfair, deceptive, untrue  
24 or misleading advertising.’” *Cel-Tech*, 20 Cal. 4th at 187 n.12. Consequently, California courts  
25 remain divided on whether the *Cel-Tech* definition applies to “consumer actions” or whether the  
26 *State Farm Fire* and *South Bay* tests remain valid. *See HSBC Bank Nevada*, 691 F.3d at 1170. The  
27 Ninth Circuit has noted this continued controversy but awaits the California Supreme Court’s  
28 resolution of it. *See id.*; *Hodsdon*, 891 F.3d at 866. In this case, the parties follow the Ninth

1 Circuit’s lead and argue under *Cel-Tech* and the prior balancing tests from *State Farm Fire* and  
2 *South Bay*. See 3AC ¶ 259; Mot. at 23-24; Opp. at 20-21.

3 First, as to Plaintiffs’ claim that Defendants’ conduct is unfair under the *Cel-Tech* test, the  
4 Court finds that Plaintiffs have alleged harm to competition or violation of the “letter, policy, or  
5 spirit of the antitrust laws.” *HSBC Bank Nevada*, 691 F.3d at 1170. See Mot. at 24. In particular,  
6 Plaintiffs argue that “Google’s actions . . . have violated California’s strong public policy of  
7 protecting privacy. Google’s conduct of intercepting, recording, disclosing, and otherwise  
8 misusing Plaintiffs’ and Class members’ private conversations violated the Wiretap Act, SCA,  
9 CIPA §632, California common law, the California constitution, and breached its contract with  
10 Plaintiffs.” Opp. at 21 (citing 3AC ¶ 260). Plaintiffs also cite to the United States House of  
11 Representatives Subcommittee on Antitrust, Commercial and Administrative Law report entitled  
12 “Investigation of Competition in Digital Markets.” 3AC ¶ 123. According to Plaintiffs, this report  
13 finds that “as competition has been reduced online, consumers have been subject to privacy abuses  
14 by Google, including through the use of the voice assistant, Google Assistant” and that “there is a  
15 significant potential for misuse of data collected by voice assistants to harm competition or  
16 consumers.” *Id.* At this current juncture, the Court finds these allegations sufficient under *Cel-*  
17 *Tech*.

18 Second, as to the pre-*Cel-Tech* definitions of “unfair,” some courts have treated the *State*  
19 *Farm Fire* and *South Bay* tests as distinct tests; others, including the Ninth Circuit, have referred  
20 to them together as the “balancing test,” see *HSBC Bank Nevada*, 691 F.3d at 1169; accord  
21 *Herskowitz v. Apple Inc.*, 940 F. Supp. 2d 1131, 1146 (N.D. Cal. 2013). In any event, the parties  
22 agree that both tests require the Court to “weigh the utility of the defendant’s conduct against the  
23 gravity of the harm to the alleged victim.” *HSBC Bank Nevada*, 691 F.3d at 1169; see Mot. at 23;  
24 Opp. at 20. Plaintiffs contend that “Google’s conduct of secretly intercepting, recording,  
25 disclosing, and misusing their communications harmed them by invading their privacy and there is  
26 no corresponding benefit to consumers. Opp. at 21 (citing 3AC ¶ 260). According to Defendants,  
27 Plaintiffs have failed to pass the balancing test because they “admit that the Assistant provides a  
28 substantial benefit to consumers” and “concede that they took advantage of these benefits and

1 wish to continue doing so.” Mot. at 24 (citing 3AC ¶¶ 4, 20, 29, 39, 51, 65, 67, 79, 80, 82, 127).

2 At the motion to dismiss stage, the Court cannot say that the benefits from Google  
 3 Assistant’s unauthorized recordings necessarily outweighs the harms from such recordings. *See*  
 4 *McCoy v. Alphabet, Inc.*, No. 20-CV-05427-SVK, 2021 WL 405816, at \*10 (N.D. Cal. Feb. 2,  
 5 2021) (“At the motion to dismiss stage, the Court cannot say that the benefits from collecting that  
 6 information to develop new products, features, and technologies for the benefit of the users and  
 7 the public necessarily outweighs the harm.”); *In re iPhone Application Litig.*, 844 F. Supp. 2d  
 8 1040, 1073 (N.D. Cal. 2012) (“While the benefits of Apple’s conduct may ultimately outweigh the  
 9 harm to consumers, this is a factual determination that cannot be made at this stage of the  
 10 proceedings.”); *see also* Order on Motion to Dismiss at 51 (“Just how ‘occasional’ the error is,  
 11 however, is a question of fact that remains unanswered at this stage. Moreover, the harm that is  
 12 asserted here is the invasion of privacy, which is difficult to quantify. The Court cannot say, as a  
 13 matter of law, that the utility of the Google Assistant necessarily outweighs the harm from false  
 14 accepts.”).

15 Defendants’ motion to dismiss on the unfair prong of the UCL is DENIED.

16 **G. Count 10: Declaratory Judgment**

17 Finally, Defendants move to dismiss Count 10, Plaintiffs’ request for declaratory judgment  
 18 under the Declaratory Judgment Act, 28 U.S.C. §§ 2201 *et seq.*<sup>3</sup> Declaratory relief is appropriate  
 19 when (1) “the judgment will serve a useful purpose in clarifying and settling the legal relations in  
 20

---

21 <sup>3</sup> In the instant motion, Defendants insist that they previously moved to dismiss this claim. Mot. at  
 22 24. A review of Google’s prior briefing reveals that Google did, indeed, move to dismiss  
 23 Plaintiffs’ declaratory judgment claim—in a single footnote buried at the end of twenty-five page  
 24 brief. This Court’s Standing Orders are clear that “[f]ootnotes shall not be used to cite to legal  
 25 authorities or evidence.” Standing Order for Civil Cases IV.F. The Court assumed that it did not  
 26 need to caution parties not to raise dispositive arguments in footnotes. *See Estate of Saunders v.*  
 27 *Comm’r*, 745 F.3d 953, 962 fn. 8 (9th Cir. 2014) (“Arguments raised only in footnotes, or only on  
 28 reply, are generally deemed waived”); *Khoja v. Orexigen Therapeutics, Inc.*, 498 F. Supp. 3d  
 1296, 1309 fn. 4 (S.D. Cal. 2020); *Cheever v. Huawei Device USA, Inc.*, No. 18-CV-06715-JST,  
 2019 WL 8883942, at \*3 (N.D. Cal. Dec. 4, 2019); *Sanders v. Sodexo, Inc.*, No. 2:15-cv-00371-  
 JAD-GWF, 2015 WL 4477697, at \*5 (D. Nev. July 20, 2015) (“Many courts will disregard  
 arguments raised exclusively in footnotes.” (quoting Bryan Garner, *The Redbook: A Manual on*  
*Legal Style* 168 (3d ed. 2013))).

1 issue,” and (2) “it will terminate and afford relief from the uncertainty... giving rise to the  
 2 proceeding.” *Bilbrey by Bilbrey v. Brown*, 738 F.2d 1462, 1470 (9th Cir. 1984) (citations omitted).  
 3 “A claim for declaratory relief is unnecessary where an adequate remedy exists under some other  
 4 cause of action.” *Mangindin v. Washington Mut. Bank*, 637 F. Supp. 2d 700, 707 (N.D. Cal.  
 5 2009); *see also Tyson v. Nationstar Mortg. LLC*, No. 15-cv-01548, 2016 WL 39903, at \*5 (N.D.  
 6 Cal. Jan. 4, 2016) (dismissing declaratory relief where “Plaintiffs’ declaratory relief claim is  
 7 duplicative of their TILA rescission claim”).

8 The Court finds that Plaintiffs have not met the requirements for declaratory relief.  
 9 Pursuant to their declaratory judgment claim, Plaintiffs seek a declaration that “Defendants  
 10 continue to owe a legal duty to not intercept, record, disclose, and otherwise misuse Plaintiffs’ and  
 11 Class Members’ confidential communications under, *inter alia*, the common law, the Wiretap Act,  
 12 the SCA, CIPA, Cal. Penal Code §632, and Cal. Bus. & Prof. Code §22576.” 3AC ¶ 283. They  
 13 also seek an injunction “enjoining Google from engaging in the unlawful conduct alleged in this  
 14 claim and requiring Google to delete all recordings of Class Members, to cease further recording,  
 15 and to implement functionality sufficient to prevent unauthorized recordings in the future.” *Id.* ¶  
 16 284. The injunctive relief Plaintiffs seek is duplicative of the relief Plaintiffs seek under the UCL.  
 17 *Compare* 3AC ¶ 262 with *id.* ¶ 284. In other words, if Plaintiffs are successful in their alternate  
 18 claims for relief, Plaintiffs’ claim for declaratory relief would be unnecessary. *See Tyson*, 2016  
 19 WL 39903, at \*5. Accordingly, the Court GRANTS WITHOUT LEAVE TO AMEND  
 20 Defendants’ motion to dismiss Plaintiffs’ cause of action for declaratory relief.

## 21 V. ORDER

22 For the foregoing reasons, the Court rules on Defendants’ motion to dismiss the 3AC as  
 23 follows:

- 24 • Count 1: GRANTED IN PART and DENIED IN PART WITHOUT LEAVE TO  
 25 AMEND
- 26 • Count 2: GRANTED IN PART and DENIED IN PART WITHOUT LEAVE TO  
 27 AMEND
- 28 • Count 3: DENIED

- Count 4: DENIED
- Count 5: DENIED
- Count 6: GRANTED IN PART and DENIED IN PART WITHOUT LEAVE TO AMEND
- Count 7: GRANTED IN PART and DENIED IN PART WITHOUT LEAVE TO AMEND
- Count 8: GRANTED WITH LEAVE TO AMEND
- Count 9: GRANTED WITH LEAVE TO AMEND
- Count 10: GRANTED WITHOUT LEAVE TO AMEND

Any amended complaint is **due by August 2, 2021**. Plaintiffs are directed to file a redlined complaint as an attachment to any amended complaint. Leave to amend is restricted to Counts 8 and 9; Plaintiff may not add new parties or claims without obtaining prior express leave of the Court. Any future motion to dismiss SHALL be limited to Counts 8 and 9. Briefing on the motion shall be limited to 5 pages for the opening and opposition briefs and 3 pages for the reply brief.

**IT IS SO ORDERED.**

Dated: July 1, 2021
