

A Complete 6th Street

A TRANSFORMATIVE INVESTMENT FROM NATIONAL AVENUE TO NORTH AVENUE

PROJECT OVERVIEW

The Complete 6th Street project will reconnect several of Milwaukee’s historic and diverse communities that have been negatively affected for decades by the impacts of urban renewal and highway construction.

The project will transform 2.6 miles of 6th Street from National Avenue to North Avenue, connecting southside neighborhoods like **Walker’s Point** through downtown to northside neighborhoods like **Hillside** and **Halyard Park**.

A transformed 6th Street will include safe, dedicated infrastructure for people walking, biking, and taking transit as well as green infrastructure that will provide much needed tree canopy and increased green space.

Informed by extensive, upcoming engagement, the project’s design will connect underserved communities through a people-centered corridor that offers cost-effective and climate-friendly mobility options and improves quality of life.

Project Location Map

PROJECT FUNDING

The City of Milwaukee was awarded \$36.56M of **Neighborhood Access and Equity (NAE) Capital Construction Grant** funding from the U.S. Department of Transportation for this transformative, community-driven project.

PROJECT FEATURES*

Improve pedestrian accommodations

Add new transit lanes and enhanced stops, where feasible

Fully separate bike lanes, where feasible

Increase tree canopy, landscaping and green infrastructure

Narrow the roadway and reduce travel lanes

TIMELINE

Design Process Begins
Fall 2024

First Public Meeting
Early 2025

Construction Begins
2027

Construction Completed
2029

Timeline is tentative and subject to change

* The project’s preferred design and features will be informed by extensive, upcoming public involvement
